TOOLS REQUIRED FOR ASSEMBLY

- 9/16" Wrench or Socket
- Pliers

Assembly Instructions

- 1** Slide Side Bar Assembly (2) over axle with the flanges of the pressed in bearing towards the inside of the roller head, add Washer (6) and lock in place by inserting and spreading ends of the Cotter Pin (7).

- 2** Add Roller Hitch Weldment (3) to side bars using 3" Bolts (4) and 3/8" Nuts (5).

- 3** Install Hitch Pin (10) and Hairpin Cotter (11) as shown.

Operating Instructions

Before Using Lawn Roller:

Read all Safety Rules found on page 1.

Though most rollers are filled with water, we recommend adding Ethylene Glycol Anti-Freeze with the water. This will protect the tank from damage during cold weather. It is also recommended that the anti-freeze used, contain a rust inhibitor to protect the inside of the tank against rust. If the roller is filled with water only, it must be drained whenever the temperature drops below 32 degrees F. (0 degrees C). The roller weighs approximately 600 pounds when filled. Safe disposal of the antifreeze is recommended. Please follow the Anti-Freeze manufacturers warnings and disposal methods.
